

Academy of Dance Arts **Studio Protocols for Covid-19**

Academy of Dance Arts will continue to follow the recommended CDC guidelines for indoor facilities.

(Revised July 2022)

- All parents are required to sign our Injury and Covid-19 Waivers on behalf of your dancer before he or she may begin classes at Academy of Dance Arts.
- If a parent or dancer is sick or even feeling, please stay home.
- All students will be dropped off at the front door carpool lane.
- Dancer pick up will be through the front main entrance as well. Please be patient, as we will be coordinating exits of each class. If you decide to wait in the parking lot, we ask that you back your car in. Exiting the lot is challenging with drop-offs happening simultaneously.
- Students will enter the building 10 minutes before their class time (NO EARLIER).
- Hand sanitizer and hand washing will be encouraged to all students.
- Masks are optional, but recommended for all people inside the building.
- Dressing rooms/changing rooms are closed; please change before you arrive.
- The Lobby/Parent Observation area is open. Only 1 parent/guardian per child is allowed in the building during drop off. Please no siblings. Seating is limited.
- The studios, including the ballet barres, carpets, and the dance floors have been fully sanitized and mopped.
- ADA Instructors and staff will be screened daily.
- Frequent sanitization and cleaning will be conducted by staff.
- Multiple professional janitorial cleanings will be conducted throughout the week, in addition to our staff's frequent daily cleanings.

- Students must bring your own water bottle.
- Bring a towel to help wipe away sweat, and sit on with your belongings.
- Bags and personal items should be brought into the studio, but will be placed apart from others.
- All students' phones must be silenced and placed inside dancer bags for the duration of classes. ADA IS NOT RESPONSIBLE FOR ANY LOST OR STOLEN ITEMS.
